## Borchers® AF 1171

Swiss Ordinance on Food Contact Materials and Articles (SR 817.023.21) - Annex 10 (List of permitted substances for the production of packaging inks and related requirements) (May 2017))

---

This product has not been yet evaluated according to the a.m. regulation.

Swiss Ordinance on Food Contact Materials and Articles (SR 817.023.21) - Annex 2 (List of permitted substances for the production of plastic materials and objects and related requirements) (May 2017))

---

This product has not been yet evaluated according to the a.m. regulation.

Regulation 10/2011/EC on plastic materials and articles intended to come into contact with food - Annex 1

---

All the substances contained in the product are not listed in the a.m. regulation.  
Based on this information the product cannot be used for food contact applications according to the a.m. regulation.

CEPE - Code of Practice for coated articles where the food contact layer is a coating (February 2009)

---

All the substances contained in the product are not authorized substances according to the a.m. regulation.  
Based on this information the product cannot be used for food contact applications according to the a.m. regulation.

EuPIA - Inventory List comprising packaging ink raw materials applied to the non-food contact surface of food packaging (December 2013)

---

All the substances contained in the product are not listed in the a.m. regulation.  
Based on this information the product cannot be used for food contact applications according to the a.m. regulation.

EuPIA - EuPIA Guideline on Printing Inks Applied to the Non-Food Contact Surface of Food Packaging Materials and Articles Paragraph 5.1.1 (July 2012)

---

The product is compliant with the paragraph 5.1.1 of the a.m. regulation. However, final legal compliance needs to be verified by the producer of the final article under consideration of the final application and the conditions of use of the product. We recommend migration testing.

EuPIA - Exclusion Policy for Printing Inks and Related Products (November 2016)

---

The product is compliant with the a.m. regulation.  
However, final legal compliance needs to be verified by the producer of the final article under consideration of the final application and the conditions of use of the product. We recommend migration testing.
